Description

Matt Translucent (IDP) Polyester

Matt translucent polyester base film, top coated for litho, laser and as PCL3 Digital grade Indigo printing.
Translucent film appears clear on contact.

Adhesive

Available adhesives: PERMANENT

Backing

Polyester film for exceptional stability and flatness.

Printing Information

Litho: Use fully oxidising inks for polyester films. Remove all traces of oil based inks and varnishes from ducts. Wherever possible print all colours in one pass eg 4 colour press for 4 colour job. Run press as dry as possible and do not use dissolvable spray powder as it will retard drying. If problems obtaining suitable inks contact PJF Printing Inks 01933 271201 quoting PCL polyester as the base material.

Laser: Excellent laser printing qualities - including high speed machines.
Always fan sheets well before printing to reduce 'static' cling.
Set paper type as 'heavy weight'.

Copier: See laser.

Ink Jet: Not suitable.

Indigo: Indigo approved grade available in PCL3 Digital range.

Availability

Available in ranges:

- PCL™
- Digital Office
- PCL3 Digital®
- A3

Warranty:

Information and recommendations are based on our most up to date knowledge and experience. As the products are used outside our control we cannot take any responsibility for any damage which may be caused when using the product.
The product information should be used as a guide only - please request samples for testing if unsure of any aspect of the application or print process compatibility.
This information sheet replaces all earlier ones. All information subject to change without notice.
