

A4+

Printers 'Blanks'

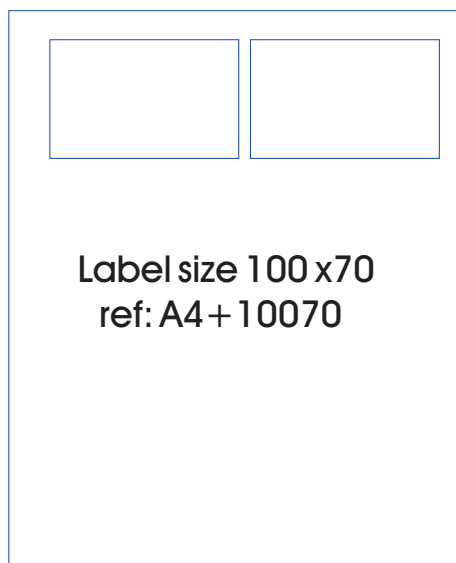

Designed for traditional printing (litho, letterpress, screen) the sheets are essentially A4 plus a lay and grip edge (nominal sheet size 225 x 336mm).

Manufactured from the same base materials as our PCL (A4) range, the 'oversize' sheet gives litho printers the ability to produce, amongst others, true A4, A5 and A6 labels. The labels are separated by a gutter and are presented as standard with the waste matrix intact; thus giving the facility for print jobs requiring bleed.

For those that require the sheets to be presented with the waste matrix removed please contact us.

The label size and format on the sheet is shown in portrait.

A4+ Labels

A4+ rectangles

Labels are also available on A4+ sized backing sheets, designed to service the traditional 'printer's blanks' market and are suitable for litho, screen and letterpress printing.

A4+ Labels are supplied with the waste matrix left intact for jobs requiring ink bleed.
