

# PRODUCT SPECIFICATION

## Machine Coated Gloss (IDP) Removable

### Description

- 90gsm, white, woodfree machine coated gloss.
- Aqueous acrylic emulsion removable adhesive.
- Minimum application temperature: +15°C
- Temperature range: -5°C to +60°C
- A general purpose removable adhesive designed for safe use in hot fusing laser and copier printing.

Removable labels can be used as a deep freeze grade providing the labels are applied to dry goods at room temperature. Please be aware that removable adhesives can permanently bond to some substrates under certain conditions - please request trial sheets to assess suitability for a particular end use. Approved for direct contact on dry and 'moist' non-fatty foods.

### Laminate Information

Thickness: 171 mic      Weight: 191 gsm
