

PRODUCT SPECIFICATION

White Rayon Satin Semi perm/Permanent

Description

- 130gsm white, soft, acetate silk with a 'satin' finish.
- Rayon Satin can be used in a wide range of applications for example: where flexible substrates require labelling (mattresses, clothing, textiles, sports bibs); as a distinctive textured, decorative label or a simple name badge.
- Minimum application temperature: 0°C
- Temperature range: -30°C to +90°C

This aqueous acrylic emulsion has been specifically developed in conjunction with rayon satin for textile labelling. It is characterised by a high final adhesion but may be removed from most textile surfaces after a short time (a few days) without leaving any residue. N.B. Trials are recommended. Approved for direct food contact on dry and moist non fatty foods (FDA 21 CFR 175.105 adhesives) No heavy metals are used in the manufacturing process and typical contents are less than 1 ppm.

Laminate Information

Thickness: 210 mic Weight: 230 gsm

Backing

White high density kraft paper with excellent lay flat properties

Printing Compatability

For detailed printing information please refer to our 'Printing Guidelines'
